

"MOHAIR SEAL TAPE"

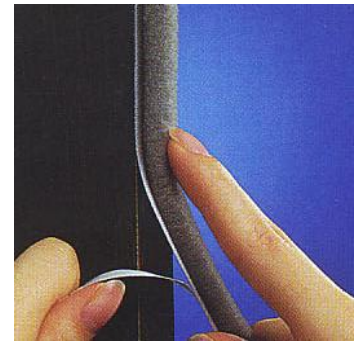

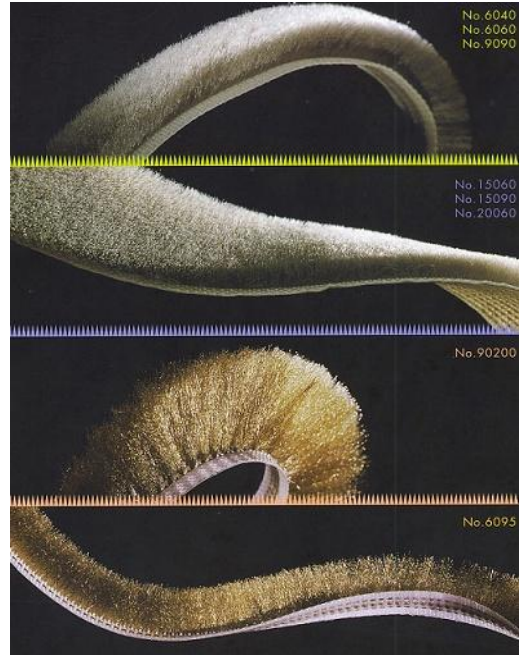

An excellent material in the restoration and durability is in a high density woven by an original manufacturing method, This is the high quality seal material completely integrated mohair and the base.

It fits any space well because of the excellent softness and restoration power, and invasions of dust, the insect, the wind, and the noise, etc. are prevented.

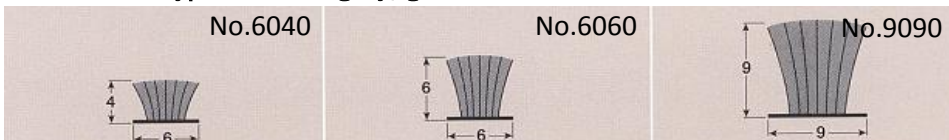

We have a product variation that can correspond widely from a narrow space to a wide space.

Strong Point

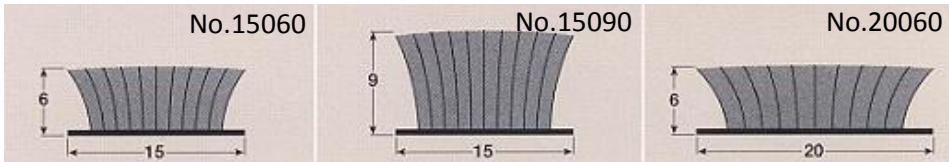

- It can fit the little space, and seal uneven space well. ▫
- Excellent restoration power,
- Strong also in water and friction,
- Durability is good,
 - a steady performance to the use of a long term is continued.
- The mohair and the base are integrated.
 - The hair does not come off and the shape does not collapse.
